

FORAGE FIELD DAY

Availability and quality of forage is of high importance to all producers in Middle Tennessee. Pastures and hay production serve as the primary forage consumption by livestock. This field day will focus on improving the practices implemented on-farm to increase the quality of forage production.

Scheduled Presentations:

Demonstration of wet-wrapped hay equipment in the field.

Worker Safety

Agribility Program

Chemical Stewardship

Date:

April 19, 2018 at 3:00 p.m.

Location:

Middle TN Research and Education Center
1000 Main Entrance Drive
Spring Hill, TN 37174

Deadline to register:

April 13, 2018

Meal will be served.
